Shape   X-s     Size when folded   1,020 x 102 x 520     Special features   adjustable end cap to stabilize the stan uneven surfa suitable for stage pic     Support depth   250     Support width   from 330 to 790	Max. load capacity	50 kg
Size when folded   1,020 x 102 x 520     Special features   adjustable end cap to stabilize the stam uneven surfasuitable for stage pices     Support depth   250     Support width   from 330 to 790	Quality level	Topline
Special features adjustable end cap to stabilize the stan uneven surfa suitable for stage pioners   Support depth 250   Support width from 330 to 790	Shape	X-stand
uneven surfa   suitable for stage pi   Support depth   250   Support width	Size when folded	1,020 x 102 x 520 mm
Support width from 330 to 790	Special features	adjustable end cap to stabilize the stand on uneven surfaces; suitable for stage pianos
	Support depth	250 mm
Type	Support width	from 330 to 790 mm
	Туре	black

The new generation of X-Stands for stage pianos is comfortable and convenient. The ergonomic clamping mechanism makes setup or break down easy and fast. The robust metal joint can be adjusted in 5° intervals; the short intervals provide the user with a multitude of positions. With the assistance of a scale the user is able to easily find his preferred setting. Both of the back rubber end caps can be adjusted on their axis and as such can be adjusted perfectly to the width of the keyboard. The maximum support depth is 250 mm. The typical K&M quality characteristics, such as solid workmanship, high quality surface finishes and practical end caps to stabilize the stand on uneven surfaces complete off the overall concept.
