Product variant

US-14039-000-02 - black velvet

Data

EAN	4016842115525
Gewicht	14.44 lbs
Height	from 18.31 to 26.38"
Height adjustment	Rotary spindle
Leg construction	double-braced 3-leg base
Material	steel
Quality level	Topline
Seat	velvet covering, 16.929 x 15.354"
Type	black velvet

This drummer's throne is comfortable, convenient and solidly manufactured. The ergonomically shaped and elaborately upholstered seat with sweat-reducing velvet cover balances superior posterior support and freedom of motion. The height adjustment is carried out by a robust rotary spindle. A two-piece plastic-lined clamp fixes the desired seat height. The continuous height adjustment ranges from 18.307 to 26.378". A solid clamp connects the seat with the rotating spindle. The upper part remains rotatable even in fixed state, without self-adjustment of the spindle. The three double-braced legs and large rubber feet guarantee a stable stand. The matching carrying case 14003 is optionally available.
