The 21010 with its exclusive swivel joint is the "load carrier" among microphone stands. The rock-solid stand, equipped with heavy full metal feet, reaches an adjustable height of 40.55-68.11" and impresses with its exceptional stability. The specially designed swivel joint, with the world-renowned T-bar locking screw, offers excellent stability even with heavy studio microphones and holds its set position even after hours. The boom arm measures between 16.535 and 28.74" over its entire length.
