| Rod combination | 2-piece folding design |
| Special features | slim clutch; tall tubing combination; big tubes provide a modern look and a superior stability |
| Threaded connector | 5/8" |
| Type | black |

Significant Stand Point! The larger tubing reaches a height of 66.929" and as such is well suited for taller individuals. The sleek clutch provides for user friendly height adjustment and it is easy to fix in place. A very heavy round cast-iron base with a diameter of 11.811" provides the stand with both exceptional stability and a small footprint. The circular rubber insert ring filters foot step sounds and reduces the transmission of unwanted sounds. The stand weighs 13.656 lbs and is equipped with an extendable boom.
