Visually and haptically appealing, the laptop stand 12195 is finished in a high-quality grey powder coating. The attractive steel base plate and the robust hinge joints provide excellent stability. The support plate and the extension arm are made of aluminum and ensure a low weight. Due to its functionality and versatility, the laptop stand can be assembled and disassembled in no time. The package is very flat and with the optional 12199 carrying case it is perfectly suited for the mobile DJ and musician. Individually adjustable stop pins with rubber caps allow the use of all common laptop models, mixers, CD players etc. The maximum application height is 10.433" and can be individually reduced to 2.559". Protective support pads and anti-slip rubber feet are included in the delivery.
