min.	4.921
Special features	high quality flocking cover; with holder for bow
Type	black
Weight	0.33 lbs

The new König & Meyer violin holder allows the safe and practical presentation of the instrument on a display unit. The violin is not held by its neck but by the curved end of the peg box. The depth of the holder means it is virtually impossible to remove the instrument inadvertently nor can it fall from the holder. The bow holder integrated at the side allows the violin and bow to be picked up comfortably and easily. The durable flocking covering is protection for the violin and perfectly complements this quality product.
